

Smart WIFI Device

Instructions for pairing with Smart Life/Tuya app

Please note that you need to pair each device **one at a time**. Please ensure that your WIFI connection is on **2.4 GHz**

- 1 Download and register an account on the Smart Life or Tuya App. Then select "+".

- 2 Select "Lighting" under the "Lighting".

- 3 Check that the light is flashing rapidly. If not turn the bulb OFF/ON 3 times.

- 4 Enter your WIFI credentials to connect to your home network. Please ensure that the WIFI network is **2.4 GHz**. Please contact us if you need assistance.

- 5 Now wait until the bulb is discovered.

- 6 Once the bulb is discovered, rename it and Select "Done".

For further information, please contact us and we'll be happy to assist you.

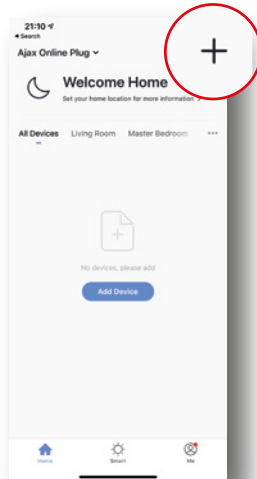

Smart WIFI Bulbs

Method 2: Instructions for pairing with Smart Life/Tuya app

Please note that you need to pair each device one at a time.
Please ensure that your WIFI connection is on 2.4 GHz

1

Download and register an account on the Smart Life or Tuya App. Then select "+".

2

Select "Lighting (Wi-Fi)" under the "Electrician".

3

Select "AP Mode" under "Net Pairing Mode". Check that the light is flashing slowly and then follow the instructions in the app.

4

Enter your WIFI credentials to connect to your home network.

Confirm indicator slowly blink

5

Select "Go to Connect" and then select "SmartLife-XXXX" in your device's WIFI settings. Finally go back to the app to continue

6

Once the bulb is discovered, rename it to your desired name and select "Done".

For further information, please contact us and we'll be happy to assist you.
